

KEEPING AMERICA MOVING

MILE AFTER MILE...

From dispatch centers and warehouses to the most remote delivery routes, **INDATEL** delivers reliable connectivity that keeps America's supply chain in motion. With over 500,000 miles of diverse fiber, **INDATEL** empowers logistics operators with seamless, secure, and scalable network solutions across the nation.

The Challenge

Rural connectivity gaps
disrupting fleet visibility

Complex multi-vendor
management

ELD and regulatory
compliance

Route inefficiencies due
to dead zones

Data fragmentation
between depots and
trucks

The INDATEL Solution

Rural-ready fiber and network backbone
for continuous coverage

One agreement, one point of contact
24/7/365

Secure, redundant connections and
auditable SLAs

Reliable, low-latency data for real-time
GPS and dispatch

Unified, managed connectivity linking
all operational nodes

500,000+ fiber route miles | 900+ independent providers | ONE Agreement
